Brief Description

UMFORMTECHNIK MASSIV+LEICHTBAU is a trade journal for industrial solid formers, manufacturers, processors and converters of lightweight solutions as well as for additive manufacturers. Topic cores are cold, warm and hot forming of metallic pieces and semi-finished products, die and mold making as well as lightweight construction. The future topics of automation and digitalization will also be in focus. UMFORMTECHNIK MASSIV + LEICHTBAU appears as a print edition four times a year as well as daily updates at www.umformtechnik.net, supplemented by e-newsletters.

UMFORMTECHNIK MASSIV+LEICHTBAU is the referral organ of the International Community of Production Technology (CIRP), Paris, and the International Cold Massive Converter Association (ICFG), Erlangen.

Contents:

The technical journal UMFORMTECHNIK MASSIV+LEICHTBAU succinctly summarizes what interests technical decision - makers in the solid forming field or in lightweight construction and additive manufacturing - correct, competent, compact. Contributions from industry, business, trade associations and research & development provide information on the status and trends in forming technology. For all those who have to keep the processes running on a daily basis, we also prepare product news from the areas of logistics, lubrication, parts handling, occupational safety and software. Specifications

Magazine format: 210 mm wide x 297 mm high

Print space: 184 mm wide x 260 mm high

Printing and binding methods: 4c offset printing (80 lpc-screen, PSOcoated_v3.icc) on double-sided multi-coated paper. Wire stitching or adhesive binding. For colour ads genuine proofs are necessary.

Data creation and delivery: Please send us your ads ready for publishing in one of the programs and formats mentioned above, if possible as PDF/X-4 data (Output Intent: PSOcoated_v3.icc) with 3 mm bleed. We are happy to provide you with InDesign PDF job options and color profiles for PDF creation. Binding proofs are desirable for colour advertisements.

Should it be necessary to edit other files or adapt the layout, we have to charge you our cost price of 115.- €/hour.

Your data can be processed by us with the following programs:

- Adobe Acrobat Pro DC

- Adobe InDesign (Version CC)

- Adobe Illustrator (Version CC)
- Adobe Photoshop (Version CC)

Image data in original sizes requires a resolution of 300 dpi (min. 600 dpi for line drawings). Indexed, LAB and RGB image data are converted by an in-house generated separation curve into the CMYK mode (the colour space is modified). This can lead to colour deviations, for which we cannot assume any liability.

Colours: Bio-Printing inks (CMYK, special colours available on request.

Proof: When making the proof please consider that our printer works with standard PSO-ISO 12647-2 values both in the preparatory and in the printing stages. If you are unable to provide us with a binding colour proof or can only supply a digital colour printout, please note that your file will be printed in compliance with the PSOcoated_v3.icc. If you are interested, please contact Oline Gränke (odine.graenke@meisenbach.de, Tel.: +49 951 861-195), who will also tell you the costs.

Data storage: Data will be archived. Unchanged rerun is generally possible. A data guarantee is,

however, not assumed.

Guarantee: By sending incomplete or differing data (texts, colours or images) we do not assume any liabilities for the correct print. Faulty exposure caused by incomplete or flawed files, incorrect settings or incomplete information will be invoiced to the customer. This also applies to additional composition and reproduction work as well as the creation of flawed proofs.
